FOR FIRE, EMS AND POLICE

ERGSS EMS & Fire Scheduler

Fill every shift fairly and by the rules, without the phone tree.

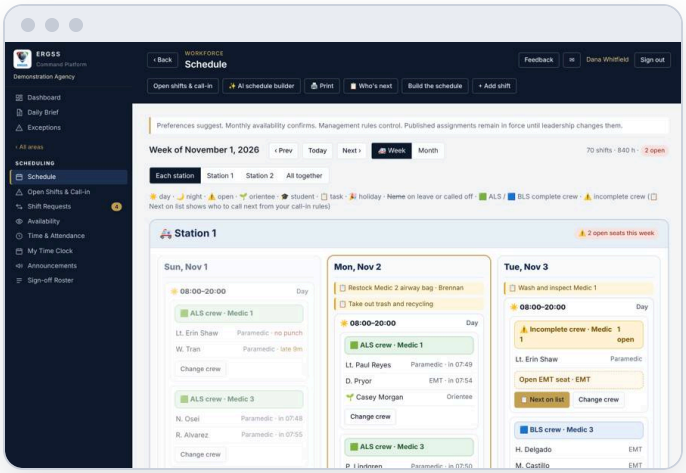
A scheduling and operations system that runs in the browser, so there is no phone app to install. Built by the ERGSS team around how fire and EMS agencies actually staff.

SCHEDULING DONE BY THE RULES

Straight time first
The draft fills full-time staff to their scheduled hours, then part-time and casual.

Fair overtime
Overtime rotation by licensure, with mandation tracking.

The daily essentials
Trades, text alerts, time clock, payroll export, incident log and a station display.



Scheduling
Core plan

- ✓ Everything at left
- ✓ Union rules optional, set per agency

Operations
Adds

- ✓ Supervisor shift log and daily handoff
- ✓ QA/QI
- ✓ Fleet and vehicle checks
- ✓ Credentials with expiry alerts
- ✓ Documents

Enterprise
Adds

- ✓ Onboarding and training
- ✓ 360° evaluations and pay for performance
- ✓ HR, analytics and board report

AI Schedule Builder Enterprise add-on
Calls in overtime automatically by text.
