ERGSS

PREPARE · RESPOND · RECOVER · MITIGATE

CORPORATE RESILIENCE

Business Continuity, Crisis Management and Incident Command for Companies

Plants, offices, data centers and distribution networks face the same storms, fires, outages and security events as the communities around them. ERGSS builds the plans and trains the teams that keep a company operating, and makes sure they work alongside local fire, EMS and emergency management when it counts.

Who we serve: Fortune 1000 and large private companies, in the US and abroad

WHAT ERGSS DELIVERS

Business continuity

Business impact analysis, plan refresh and recovery strategies for critical functions and sites.

Crisis management teams

Crisis team design, playbooks and exercises for executives and regional leaders.

ICS for corporate and site leaders

Incident Command System training so plant and site leaders integrate with county responders.

Site emergency plans

Emergency action and response plans (OSHA 1910.38, and 1910.120 where hazmat applies) and drills with local responders.

Multi-site readiness

Severe-weather and hurricane readiness and crisis communications exercises across regions.

Interim program leadership

Bridge support for an open continuity, crisis or emergency management seat: exercises, plan refresh and team readiness until it is filled.

WHY ERGSS

- Cadre holds Certified Emergency Manager and HSEEP exercise credentials.
- Exercises built from real incidents and tested with the agencies that would respond.
- Delivered at your sites, online, or by mobile training team, in the US and internationally.

RELEVANT PAST PERFORMANCE

- **Fidelity Investments.** Incident Command System instruction for corporate staff in Boston, Massachusetts.
- **Florida Power & Light.** ICS-300 and ICS-400 training reinforced with tabletop exercises for utility personnel.
- **National Electric Utility, Malawi.** Business continuity training for the country's sole energy utility.

A 20-minute call on where your continuity and crisis program stands and what the next exercise should test.
