ERGSS

PREPARE · RESPOND · RECOVER · MITIGATE

CRITICAL INFRASTRUCTURE AND TRANSPORTATION

Readiness for Airports, Ports, Transit, Water and Utilities

Infrastructure operators carry regulatory exercise and planning requirements on top of the hazards they face every season. ERGSS writes the plans, trains incident management teams and designs the exercises that regulators and communities expect.

Who we serve: Airports, seaports and port authorities, transit and rail, water and wastewater utilities, public power, cooperatives, gas, pipeline and telecom operators

WHAT ERGSS DELIVERS

Airport emergency plans
FAA Part 139 AEP updates and triennial full-scale exercise design and evaluation.

Water utility resilience
America's Water Infrastructure Act risk and resilience assessments and emergency response plan updates.

Continuity of operations
COOP plans for operations centers and critical functions.

Port and terminal plans
Port and terminal emergency plans and exercises with Coast Guard, fire and police partners.

IMT and ICS training
Incident management team and ICS 300/400 training for storm restoration and major incidents.

GIS asset and hazard mapping
Mapping of assets, hazards and outages to support planning and response.

WHY ERGSS

- Cadre members have directed emergency management for major airports.
- HSEEP-compliant exercise design and evaluation.
- Mutual-aid and EOC integration built into every plan.

RELEVANT PAST PERFORMANCE

- **Dallas Fort Worth International Airport.** Pandemic preparedness plan, among the first at any international airport, validated through tabletop and functional exercises; COOP planning and EOC management support.
- **Florida Power & Light.** ICS-300 and ICS-400 training reinforced with tabletop exercises for utility personnel.
- **National Electric Utility, Malawi.** Business continuity training for the country's sole energy utility.
