FAMILY SAFETY APP
ERGSS Family

# Know where your family is, and what to do when something goes wrong.

Most location apps stop at a dot on a map. ERGSS Family is built by an emergency-management firm, so it also warns you when trouble is near and tells everyone what to do.

## WHAT YOUR FAMILY GETS

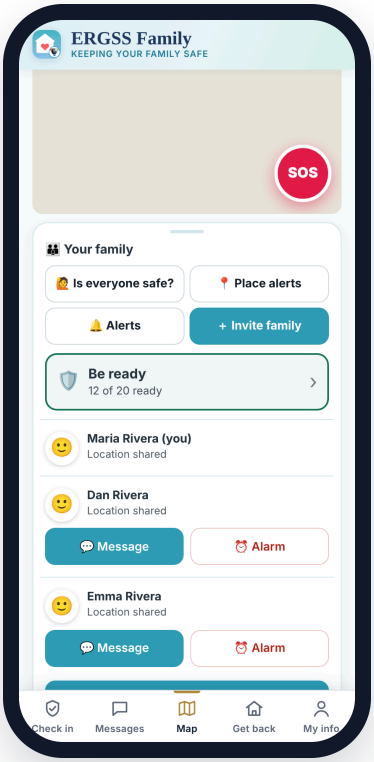

### A private family map
Everyone on one map, with walking and driving speed and location history. Arrive and leave alerts for home, school and work.

### Word when something changes
Alerts when a phone goes dark, location sharing stops, or a battery runs low. A parent settings lock keeps sharing on.

### Help when it counts
SOS and crash detection, plus directions straight to any family member when a child is lost.

### Warnings that say what to do
Severe weather and threat alerts, with steps for each person.

### Meet here
Drop a pin and everyone gets directions. Handy on vacation, and included in every plan.

## PLANS

### ERGSS Family
**$10.99** / month

The full app for the whole family.
Pay yearly and get one month free.
No contract. No hardware.

### ERGSS Family Watch
**$39.99** / month

Real watch officers answer every SOS and crash, coordinate local emergency services and call your contacts. Emergency Ready included.

ERGSS Family Watch covers the continental US. ERGSS watches and coordinates; it is not insurance. Rescue and evacuation are not included and are billed separately at actual cost. Traveling outside the continental US? Travel Protection is available from $199 per traveler per trip.
